Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...

Professor PZ Myers demonstrates one more time how ID advocates misrepresent scientific data, trying to utilize them for their own goals. The case in point is a high-quality scientific article analyzing the process of the increase in size of life forms over the millennia; the authors of that paper found links between the organism's size increase and the evolution of the earth atmosphere's ...

If the watchword of the market economy is profit, the watchword of bureaucracy is growth. How are these respective objectives to be achieved? The way to attain profit in a market economy is to beat the competitors in the dynamic, ever-changing process of satisfying consumer demands in the best possible way: to create a self-service supermarket instead of the older grocery store (even a chain ...

Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing".But not knowing is not always obvious or clearly understood.That's because learning is not fully understood. The more you learn the more you should realize what you didn't know.
