together or separate checks pdf

The "psychologically separate" condition was identical in all respects except that the cues did not evoke a feeling of working together. The experimenter told participants that the research investigated "how people work on puzzles" and that they would "work on a puzzle called the map puzzle."

Cues of working together fuel intrinsic motivation

The separation of powers is a model for the governance of a state. Under this model, a state's government is divided into branches, each with separate and independent powers and areas of responsibility so that the powers of one branch are not in conflict with the powers associated with the other branches.

Separation of powers is a political doctrine originating in the writings of Charles de Secondat, Baron de Montesquieu in *The Spirit of the Laws*, in which he argued for a constitutional government with three separate branches, each of which would have defined abilities to check the powers of the others. This philosophy heavily influenced the writing of the United States Constitution, according ...
