Standards and Benchmarks. For College and Career Readiness. The Benchmarks are scores on the ACT subject-area tests that represent the level of achievement required for students to have a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in corresponding credit-bearing first-year college courses.

Scientific opinion on climate change is a judgment of scientists regarding the degree to which global warming is occurring, its likely causes, and its probable consequences.. A related "but not identical" term, "scientific consensus on climate change", is the prevailing view on climate change within the scientific community. The consensus is that: Earth's climate has warmed significantly ...
